KAROQ PERSONAL CONTRACT PLANS FROM €319

ŠKODA PCP Solutions gives you flexible finance options and the convenience of a guaranteed future value (GFV) of your new ŠKODA KAROQ.

A KAROQ Personal Contract Plan is based on a hire purchase agreements with a difference! At the end of your contract you may choose to change your KAROQ for a brand new ŠKODA model, keep it or simply return it to your dealer.

You pay a small deposit (as little as 10% of the purchase price) and benefit from attractively low monthly instalments and a guaranteed future value of your new KAROQ. What's more, the monthly rentals we have provided (on the right) include the cost of servicing for three years.

So, whether you want to drive the latest and safest model, upgrade regularly or simply keep your new KAROQ, ŠKODA PCP Solutions makes your money go further.

ŠKODA Terms & Conditions

The information, images and content presented in this catalogue/brochure/price list are used for illustrative purposes only and are not intended to form part of any contract or warranty. They display pre-series left hand drive vehicles and certain illustrations, features, parts, colours and equipment may differ from the actual production cars and from what is offered in Ireland. Errors may occur and prices and specifications may change without prior notice. For exact specification and technical details please discuss with your ŠKODA dealer in advance of placing your order. All prices displayed exclude recommended delivery charge of €750. Metallic paint costs are not included and vary from model to model.

* Since September 2017, a new European Union developed test called the Worldwide Harmonised Light Vehicle Test Procedure (WLTP) is being rolled out on a phased basis as new vehicle models come to market. This applies to all vehicle manufacturers and replaces the New European Driving Cycle (NEDC) test procedure for establishing the official fuel consumption and CO2 emissions figures for new vehicles. The pricing in this promotional catalogue is based on emissions data for ŠKODA vehicles (produced prior to 30th July 2018) that have not been tested under the WLTP and will differ to the declared values for vehicles produced after this time. Different emission values could lead to an increase in Vehicle Registration Tax that may in turn lead to an increase in price. Annual Road Tax may also be affected. Please consult your dealer before placing your order.
