THE NEW ŠKODA
SUPERB
SCOUT
Even if the urban jungle offers some kind of adventure, the real excitement sometimes starts where normal streets end. Fortunately, the ŠKODA SUPERB SCOUT is at home on both terrains. In the exclusive combi version it combines the comfort of a city limousine with the off-road character of an SUV.

Not only does it look elegant all round, it’s also protected all around. Thanks to the rough road package and the higher chassis, flying stones and dust are no bother – no matter where the 4x4 drive takes you.

So if you would like to drive over other stones in addition to kerbstones the ŠKODA SUPERB SCOUT is the right car for you.

That’s Simply Clever. That’s ŠKODA.
The SCOUT is ready for any challenge. It comes with protective exterior elements, which give the elegant SUPERB robustness and a tougher look. They also help protect the body when driving beyond paved roads.

SOMETIMES EVEN STONES JUMP FOR JOY

PROTECTIVE ELEMENTS
The Scout version features among other things an add-on part on the front bumper in silver, as well as black plastic covers on the wheel arches and door sills. The higher chassis is equipped with the rough road package, so you can go off paved roads without trepidation.

REAR VIEW
The rear bumper with a silver protective cover lends the car’s body a tough appearance.

BADGE
As proof of the car’s off-road ability there’s a badge included on the front wing fenders.
EVEN WHEN OFF ROAD
ALWAYS ON TRACK
While the car handles bumpy roads, you’ll stay in absolute comfort inside the incredibly spacious interior, surrounded by high-quality materials and details designed exclusively for the Scout version. All made with ŠKODA’s craftsmanship precision.

HIGH-END EVEN AFTER HIGHWAYS END
STYLISH DETAILS
The dashboard features the original Scout badge and remarkable Ash Brown décor (shown) or Dark Brushed décor with a decorative chrome strip. The LED ambient lighting running along the inside of the car offers ten appealing colour options.

LOGO
The Scout logo is embroidered on the front seat backrest.

COMFORT AND FUNCTIONALITY
For your maximum comfort, the Scout version can be upholstered with a combination of black Alcantara® and leather/leatherette. The electrically-adjustable driver seat with built-in memory comes as standard.

STYLE AND SAFETY
The multifunctional leather steering wheel, which lets you control the radio, phone and alternatively DSG, is equipped with heating function, controlled via the infotainment system.
CUSTOMISATION

SCOUT BLACK INTERIOR
Dark Brushed décor
Alcantara®/leather/leatherette upholstery, front seat piping (in a contrasting colour)

Fabric upholstery with ThermoFlux function
This car is ready for any adventure. With its 4x4 drive and off-road skills, it’s ready to handle any terrain from potholes or mud to steep hills, while you and your family stay safe and comfortable.

**ALL-WHEEL DRIVE**

The 4x4 drive is provided by an inter-axle electronically controlled multi-plate clutch. The coupling of the rear axle is automatic, so under normal conditions the car can utilise the advantages of front-wheel drive, and under extreme conditions the excellent traction of the 4x4 drive.

**OFF-ROAD MODE**

With the intelligent Off-Road Mode system, which operates at speeds of up to 30 km/h, you can handle even extreme terrain. It is designed to adjust the characteristics of the engine, electronic assistants and stability control systems. The activated functions are shown on the infotainment display.

**DYNAMIC CHASSIS CONTROL**

Your car can be equipped with the Dynamic Chassis Control (DCC), which continuously evaluates and responds to various driving situations (braking, acceleration, turning), adapting the damping characteristics. DCC always comes in combination with Driving Mode Select and allows you to choose Comfort, Normal or Sport mode.
To be online fully and permanently means not only having access to entertainment and information, but also possible assistance while on the move. ŠKODA Connect is your gateway to a world of unlimited communication possibilities.

Unlock & Lock
This feature allows you to comfortably lock and unlock your vehicle via ŠKODA Connect App no matter where you are. For example, in case you forgot to lock your car, you can easily do so with your smartphone from anywhere.

Parking position
See the exact location of your car from anywhere. ŠKODA Connect shows the address, time and date of parking on your phone.

ŠKODA CONNECT:
Take the online world with you

Online traffic information
Always take the best route up to date information gives you a perfect overview of every trip. It also enables you to react to new developments, such as roadworks, accidents and traffic jams.

Weather
Get the latest weather report for your current location, destination or anywhere else with detailed forecasts, including precipitation predictions and warnings.

Petrol stations
You can find out the distance, petrol station type, and the current fuel prices. This information is displayed in real-time. The fuel type of the vehicle is automatically detected and displayed.

Emergency call
An SOS call is made automatically during an emergency on the road. The system can also be activated manually by pressing the red button on the roof console.
IT'S THE NEW WAYS THAT LEAD TO NEW ADVENTURES
